

Olmec Systems

Technology Integrator

David Rickard, Vice President Sales & Marketing

About:

Olmec Systems is a 20 person company located in Denville. We specialize in providing technology solutions to small and mid size businesses. We have a dedicated Helpdesk team, a team of field technicians, a project manager team, and a service manager. We offer 24/7/365 network monitoring and emergency services options to our clients.. Our goal is to become the outsourced IT department for the businesses we partner with.

I provide:

- Network Design and Installation
- A unified cloud platform
- Managed Services with unlimited support/network monitoring/emergency service
- Project management
- Disaster Recovery & Business Continuity Solutions
- Data Backup
- Voice Solutions
- Moving & Relocation services

I'd like to speak with:

- Business Owners and professionals
- Business Owners who would like to outsource their IT support
- Small and mid-sized companies
- Technology executives
- IT Administrators who need additional support
- Fellow professionals who want to network and help each other's business

Situations where I can help:

- Outsourced IT managed services
- Network design and installation
- Migration to the cloud
- Companies that have outgrown or are unhappy with their current IT solutions provider
