

John Kullmann

Vice President of Marketing & Sales

John is a dynamic, results-oriented leader who is responsible for all business development at [Macrosoft Inc.](http://www.macrosoftinc.com) and is a member of the corporate management team. Under John's direction, Macrosoft has grown significantly in customer base and depth, as well as in corporate product scope.

John has over 20 years of experience and is a recognized expert in business development efforts for professional services firms. His focus is on building customer relationships while driving sales and achieving sustainable revenue growth. Serving as the executive business contact for wide variety of companies, he consistently and articulately represents client needs and goals within the organization to ensure quality. His leadership style encourages a performance-based culture, by providing clear direction and ongoing development opportunities to achieve corporate, team and individual goals while overcoming the many competitive challenges of multiple industries and technologies.

Prior to his current role, John successfully revitalized and restructured weak international sales and marketing efforts at Six Sigma Qualtec. There he generated new business opportunities by identifying qualified prospects and establishing and managing new business relationships. He continues to utilize all Six Sigma and Lean tools while ensuring delivery of high client satisfaction.

About Macrosoft Inc.

Macrosoft delivers high-quality, cost-effective, full lifecycle solutions to complex software development projects. The company has over a decade of successful engagements and over 300 professionals working for an exceptional client list. Macrosoft's highly qualified and professional development teams manage the entire development lifecycle, from business process engineering and system architecture design through deployment, hosting, maintenance and support.
